EXPERTISE

Fullstack Development
Team Leadership/Coaching
Lead technical transformation initiatives
Distributed and remote work environments
Product development
Agile Methodologies
Startup growth and foundation-building

SKILLS

Problem-solving
Strong technical vision and ability to guide teams
Strong communication and collaboration abilities
Strong design sensibility for UI/UX
Ability to create exceptional user experiences
Teaching

EDUCATION

UNIVERSIDAD ADVENTISTA DE CENTRO AMERICA
Bachelor of Computer Systems Engineering | 2008

PROFILE

Experienced Software Engineer with a solid track record of delivering successful projects for global clients across various industries, including expertise with startups in their early stages. I have deep expertise in the full development life cycle, agile practices, and team leadership. I'm skilled in full-stack development, JavaScript, mobile, CI/CD, and best coding practices. With over 18+ years of experience in web development, I'm committed to continuous learning and self-improvement and passionate about using my skills to deliver high-quality solutions.

EXPERIENCE

SENIOR SOFTWARE ENGINEER

Intevity | Under Armour | 2025 - Current

- Migrated Mulesoft Loyalty APIs (events, orders, points, profiles, rewards, Snowflake, Aptos) into new microservices built with Node.js.
- Build architecture with SQS queues/consumers and controllers (Customer, Event, Points, Rewards, Aptos) for scalability.
- Integrated microservices with core enterprise systems including PredictSpring POS, Aptos POS, UA.com, OMS, SFSC, and SFCC.

SOFTWARE ENGINEER III

Notch Financial | 2022 - 2025

- Led architecture and development of AP/AR platform, building Restful APIs and react apps with OCR capabilities, processing thousands of invoices monthly.
- Designed and implemented payment systems with PDF invoice APIs, multi-provider integrations (Stripe, Adyen, Balance), and responsive customer/supplier portals.
- Built OCR bills editor with real-time collaboration and third-party financial integrations, streamlining validation workflows, in a react app.
- Developed shared UI component library, reusable frontend/backend components, and migrated native apps to iOS/Android web apps via Capacitor+React, improving scalability and time-to-market.
- Ensured quality through comprehensive unit testing and active participation across the full SDLC from discovery to deployment.

TECHNICAL SKILLS

React, Typescript, Angular, React Query, Zustand, Zod, Redux, Backbone

Node.js, PHP, Java, Python, Go, C#

Postgres, MongoDB, MySQL

Webpack, Vite, Bun, npm

Wordpress, Contentful

Jest, React, Testing Library, Enzyme, Cypress.

HTML, CSS, SCSS, Tailwind, Styled Components.

Docker, Kubernetes, Netlify

AWS, GCP

Ionic, React Native, Nativescript

LANGUAGES

Spanish

Soccer

SOFTWARE ENGINEER

Stackhawk | 2020 - 2021

- Built the foundation of beta and production-ready product UI in React, integrating with gRPC microservices for security scan data.
- Enhanced accessibility (a11y) and collaborated with design/product teams to release new features.
- Led migration of marketing site from WordPress to Contentful (Headless CMS), improving load speed, SEO, and usability.

SOFTWARE DEVELOPER

Gorilla Logic | 2017 - 2020

Development Lead @ Serena and Lily (serenaandlily.com)

- Developed sales estimate module at Serena & Lily, reducing manual work for sales reps and improving website functionality.
- Guided team on best practices, enhancing site performance, load speed, accessibility, and overall user experience.
- Migrated Splunk (VictorOps) marketing site from WordPress to Jekyll, boosting speed, security, and a11y compliance.

Software Developer @ Splunk / VictorOps

- Head of Web Development marketing, leading full redesign and migration from WP to Jamstack approach (Jekyll + Contentful + NodeJS).
- Planned and implemented global UI components, optimizing performance and ensuring ADA accessibility compliance.

FRONT END ENGINEER

Eleven Systems | 2016 - 2017

- Built scalable Angular modules for a large financial web application, integrating RESTful API services with complex data.
- Designed and implemented financial module UI/UX, including advanced data visualizations with Highcharts and Salesforce integration.

PRINCIPAL LAYER ENGINEER

Prodigious LATAM | 2013 - 2016

- Redesigned and migrated smartusa.com website UI architecture to use Java services, handling UI planning, development, testing, and bug fixing.
- Built multiple Facebook social apps and games to drive engagement.
- Developed a 3D vehicle interior viewer using Three.js.

SENIOR WEB DEVELOPER

Accenture | 2011 - 2013

- Built a hybrid iOS/Android apps for Merck Pharma.
- Backend architecture and functionality in PHP/WordPress for costaricavacations.com, including custom plugins for Razuna CDN.
- Created a SPA with Backbone.js for Gatorade to display sports scores and statistics via RESTful services.
